

Weekly News

Friday 3 December 2021

It has been a shame to find that this week Covid infection appears to have returned to our community. While none of the cases have yet been confirmed with a PCR test, there are two children in Y5 and one in Y4 now who have had positive results on a lateral flow test. Please be reassured that we continue to follow the measures in our risk assessment and I have today confirmed with Public Health England that the actions we are taking are proportionate and appropriate. At this stage, we still intend that all Christmas events listed below will go ahead but please adhere to all safety measures requested such as wearing face masks and conducting a lateral flow test before attending.

C. Richards

Year 5— **Jackson**

Year 6— **Willow**

Well done to all of you!

The JLT represented the school at the Co-op brilliantly this week on a brief visit to publicise the fact that we are one of their chosen charities. They are helping FOSCS raise money towards the cost of our Artis project which the Y2-6 children are really benefitting from both in their learning and wellbeing. If you have a Co-op card, please consider nominating the project as your chosen charity so that the entire Co-op donation following your purchases is allocated to our project. Thank you!
