Friday 11 March 2022

We are really sorry that staffing difficulties have meant that Pre-school was not open today. Illness, including Covid, continues to cause our staff resources to be stretched across the school predominantly because we are almost never able to get supply cover to replace anyone as we would have been able to pre-pandemic. We make every effort to cover absences and keep all classes open whenever we can, but please could parents of pupils in all classes continue to check their emails at 7.30am each day in case we are forced to move your child's class to remote learning at home.

Well done everyone!

Please be reminded that Covid isolation rules for schools remain the same. If your child has any of the three symptoms of Covid, they must stay away from school and get a PCR test. If this returns as positive, they must stay at home for at least 5 days and until they get two consecutive negative lateral flow tests (or return after day 10 if this never occurs.) We currently have ten confirmed cases among staff and pupils with half of those being in Year 3 and the others scattered across most of the other classes.
